Dear Sirs—Your Hepatozone has had a rather extended trial in this institution, among officers and pupils; it has proven a safe and certain remedy in affections of the liver. It is also a valuable and cheap aperient. It removes constipation of the bowels, relieves indigestion, and can be taken at any time without any bad effect. I cheerfully recommend its use in all cases involving derangement of the functions of the liver, and in many cases where the stomach and howels are involved.
